

There has been a longstanding tradition of academic excellence at St. Gregory School. That tradition continues with our recent results on the Iowa Assessment. We use this data to not only analyze student performance, but we also use it to guide our instruction and curriculum. We want to ensure that students are displaying strong academic achievement and growth over a period of time.

The chart below shows the **Grade Mean Equivalent** from the 2019 fall assessment. The Grade Mean Equivalent is a decimal number that describes performance in terms of grade level and months.

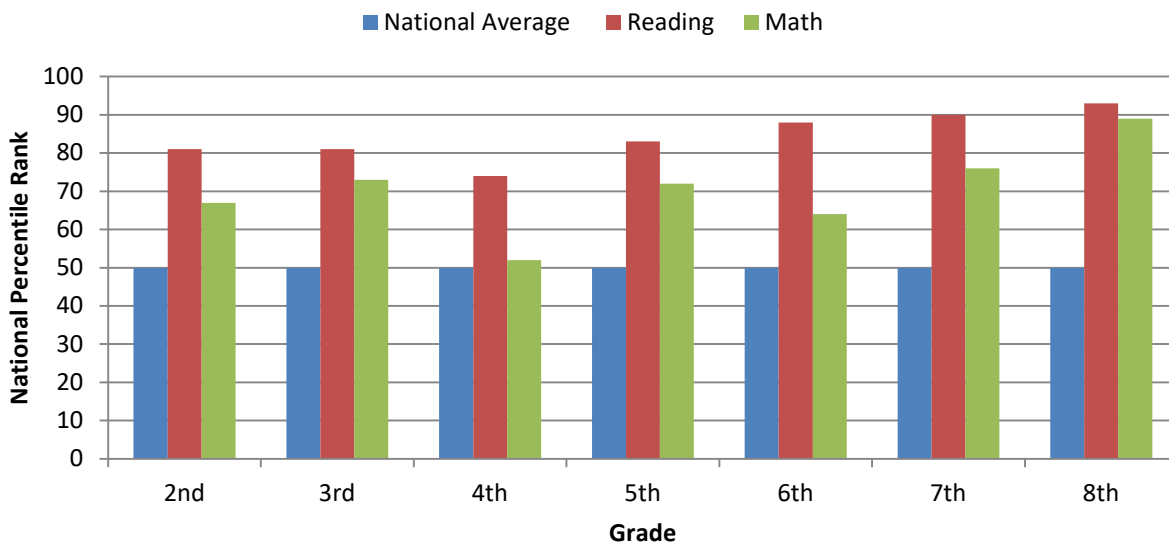

The score next to each grade is the grade equivalent achieved by that class. The average for grade 8 would have been 8.1 (the first month of grade 8). Our 8th graders scored a 13+ in Reading and Language; that is what you would expect someone beyond high school to do on the same test. This does not necessarily mean that they could do 12th+ grade work, but they did as well on this test as the average 12th+ grader on this test. Please see our 8th graders results below the graph.

The graph below the chart shows the **National Percentile Rank (NPR)**. A score in the 80th **percentile** means the class scored better than 80% of students on the **Iowa test**. **Percentile rankings** range from 1-99; the average **rank** in the U.S. is 50th **percentile**.

*Group scores are not available for Kindergarten and 1st Grade – we use the Acadience Assessment (see website for results).
